WordPress Theme Development Beginner's Guide, Third Edition Tessa Blakeley Silver, Rachel McCollin

In Detail

If you've been using WordPress to build websites for yourself or clients, you've probably reached a point where you need to build your own theme. Being able to build your own themes means you can build beautiful, bespoke websites using WordPress and means you're not limited to the themes you can download.

WordPress Theme Development Beginner's Guide will take you through the process of building your first WordPress theme. It will show you how to write the HTML and CSS your theme will be based on, then convert that code to PHP for use in WordPress. Once you've done that you'll learn how to add more features to your theme and make it responsive, accessible and SEO-friendly.

Start by designing your theme using HTML and CSS, then work through the steps to turn this into a fully functioning WordPress theme, including creating template files, adding template tags and PHP to display content, and giving your theme extra goodies like menus, widget areas and more.

Create a gorgeous, responsive and standards-compliant design for your theme using HTML5 and CSS3. Take your HTML and use it to create PHP template files using the WordPress template hierarchy, then add in template tags and the loop to display pages and posts in your theme. Add widget areas, menus and featured images. Learn how to debug your theme and validate it, ensuring it's standards-compliant and accessible. Find out what steps you need to take to release your theme to the public, and finally learn some extra tips and tricks such as how to enhance your theme for SEO and how to add support for the WordPress theme customizer.

At the end of WordPress Theme Development Beginner's Guide you'll have the skills you need to build quality WordPress themes using your own designs. Working through a straightforward worked example, you'll learn the steps you need to follow to create a theme from scratch.

Approach

A Beginner's Guide packed with clear step-by-step instructions to create powerful and professional themes for your WordPress website

Who this book is for

If you've used WordPress to create self-hosted websites using themes you've downloaded but want to start building your own, this book is for you. You will need an understanding of how to use WordPress and some understanding of HTML and CSS. Simple PHP will be included in the book but you don't need any prior PHP knowledge or experience – it will all be explained for you.

From reader reviews:

Adam Rucks:

The book untitled WordPress Theme Development Beginner's Guide, Third Edition contain a lot of information on the idea. The writer explains the girl idea with easy method. The language is very clear to see all the people, so do certainly not worry, you can easy to read that. The book was written by famous author. The author brings you in the new age of literary works. It is possible to read this book because you can read on your smart phone, or product, so you can read the book in anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official web-site in addition to order it. Have a nice study.

Anna Raynor:

Many people spending their moment by playing outside along with friends, fun activity using family or just watching TV all day long. You can have new activity to invest your whole day by looking at a book. Ugh, ya think reading a book can definitely hard because you have to use the book everywhere? It alright you can have the e-book, bringing everywhere you want in your Cell phone. Like WordPress Theme Development Beginner's Guide, Third Edition which is obtaining the e-book version. So , try out this book? Let's notice.

Phil Garcia:

That reserve can make you to feel relax. This particular book WordPress Theme Development Beginner's Guide, Third Edition was bright colored and of course has pictures on the website. As we know that book WordPress Theme Development Beginner's Guide, Third Edition has many kinds or genre. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and believe that you are the character on there. So , not at all of book usually are make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading in which.

Oliver Gerling:

As a scholar exactly feel bored for you to reading. If their teacher asked them to go to the library or make summary for some book, they are complained. Just small students that has reading's internal or real their passion. They just do what the educator want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading is not important, boring as well as can't see colorful images on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this WordPress Theme Development Beginner's Guide, Third Edition can make you truly feel more interested to read.
