The author then utilizes critical integral theory (a la Wilber) as an approach to categorize the developmental and evolutionary spectrum of fear management systems known thus far. The author has spent twenty years researching the timely topic of fear and how to best manage and transform it. From this experience, he offers an educational healing vision to address the challenges of a dangerous 21st century. Fear's empire has taken rule. It is time to resist it using the best intelligence from both sacred and secular traditions, as well as the transformational theories humanity has to offer. Fisher maps out ten fear management systems that will benefit future-positive leaders everywhere.
