Abrams' Angiography: Interventional Radiology Jeffrey Geschwind, Michael Dake

The Interventional Radiology volume of the landmark reference Abrams' Angiography has now been expanded and thoroughly revised to reflect dynamic advances in interventional radiology. More than 60 contributors representing a "Who's Who" of the specialty provide comprehensive, step-by-step coverage of all contemporary vascular and nonvascular interventional procedures.

Major sections discuss today's equipment and describe interventions for specific disorders of each organ system, as well as for trauma, pediatric diseases, abscess drainage, and miscellaneous disorders. More than 1,100 illustrations complement the text. This edition incorporates an extensive new section on interventional oncologic procedures. The section covers all organ-specific cancers for which interventional therapies are used. Other sections include arteriovenous malformations, liver diseases, arterial occlusive disease, aneurysms, traumatic arterial injuries, hemorrhage, and venous diseases. It also has full color.
