The Quinolones Vincent T. Andriole

Quinolones constitute a large class of synthetic antimicrobial agents that are highly effective in the treatment of many types of infectious diseases, particularly those caused by bacteria. New quinolones are continually being developed as bacterial species develop resistance to existing quinolones. This book presents the most current information available in our continual struggle to conquer disease.

Over time, bacteria become resistant to medicines that are used to combat them. Because of this, the medical world is always in search of new and improved ways to battle these disease-causing bacteria. Quinolones are at the forefront of this research.

Edited by one of the world's foremost authorities on the subject, the third edition of this highly successful title will serve as a valuable tool for primary care physicians and researchers interested in a comprehensive, up-to-date reference on the chemistry, mechanisms of action, development of resistance, and clinical efficacy of both currently available and newer quinolone compounds under investigation. This is the eagerly anticipated fully revised edition of the standard reference in the field.

Key Features

- * Eagerly anticipated updated edition of noted title covering synthetic microbial agents that are useful against infectious disease, particularly those caused by bacteria
- * Edited by one of the foremost experts in the field of quinolone research and infectious disease
- * History of quinolones, chemistry & mechanisms of action, pharmacology, safety aspects
- * Role of quinolones in treating various types of infections, including respiratory infections, gastrointestinal infections, urinary tract infections, prostatitis, STDs and bacterial meningitis as well as their use in immunocompromised patients

From reader reviews:

Ruth Jones:

What do you consider book? It is just for students because they are still students or this for all people in the world, what best subject for that? Just simply you can be answered for that concern above. Every person has several personality and hobby per other. Don't to be obligated someone or something that they don't desire do that. You must know how great and important the book The Quinolones. All type of book would you see on many options. You can look for the internet solutions or other social media.

Melissa Sanders:

Reading a book can be one of a lot of exercise that everyone in the world adores. Do you like reading book thus. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new info. When you read a book you will get new information because book is one of many ways to share the information or their idea. Second, studying a book will make anyone more imaginative. When you reading through a book especially fictional book the author will bring that you imagine the story how the characters do it anything. Third, you may share your knowledge to other people. When you read this The Quinolones, it is possible to tells your family, friends as well as soon about yours guide. Your knowledge can inspire different ones, make them reading a e-book.

Lydia Donaldson:

People live in this new day of lifestyle always aim to and must have the free time or they will get lot of stress from both day to day life and work. So , when we ask do people have extra time, we will say absolutely yes. People is human not just a robot. Then we question again, what kind of activity do you possess when the spare time coming to an individual of course your answer will certainly unlimited right. Then ever try this one, reading textbooks. It can be your alternative inside spending your spare time, the book you have read will be The Quinolones.

Jacqueline Kellett:

Your reading 6th sense will not betray an individual, why because this The Quinolones book written by well-known writer whose to say well how to make book that may be understand by anyone who have read the book. Written in good manner for you, leaking every ideas and producing skill only for eliminate your own hunger then you still question The Quinolones as good book not only by the cover but also by the content. This is one guide that can break don't evaluate book by its cover, so do you still needing yet another sixth sense to pick that!?! Oh come on your studying sixth sense already alerted you so why you have to listening to an additional sixth sense.
