For gardeners and backyard do-it-yourselfers, concrete is a revelation. It's durable, weatherproof, impossible to steal, and it provides much-needed insulation for outdoor plants. Concrete weathers beautifully, softening around the edges, developing moss, and becoming more picturesque with age.

*Concrete Garden Projects* takes advantage of concrete's numerous assets, showcasing an inspiring array of creative options. The step-by-step instructions for dozens of easy, do-it-yourself décor ideas include containers of all shapes and sizes, elegant benches and stools, miniature ponds and birdbaths, stepping stones, a barbecue, and a fire pit. The authors use a variety of molds easily found or made, household items like bowls and baking pans, and simple wooden frames and boxes. At pennies per pound, and so simple to use — just mix with water and pour — concrete is the key to hand-crafted backyard décor.
