Sophia: former black operative, current enemy of the state.

Moments before a catastrophic hurricane hits New York City, a terrorist attack vaporizes a museum and a large chunk of the Upper West Side. Almost caught in the explosion, Sophia gives chase to a suspicious figure running from the blast zone.

Amid the chaos, Sophia recovers a rare meteorite from a black operative and is quickly ensnared in a hunt between clashing factions of a labyrinthine covert government known as the Fifth Column.

The meteorite contains traces of the ancient Phoenix virus. The effects of the virus are unknown to Sophia, but she soon discovers it is more powerful than she dared imagine - and that the Fifth Column will stop at nothing to get it.

Unarmed and outnumbered, Sophia and her allies hurtle towards a confrontation that will determine not only their fate but that of all humanity.
