The Encyclopedia of Haunted Places is the first directory to be written by dozens of the world's leading paranormal investigators. Research notes, location background, first-hand accounts, and many anomalous photographs featuring ghostly manifestations comprise the hundreds of haunted listings in this directory. For years, paranormal investigative groups have been studying their local ghosts with scientific equipment as well as with more esoteric methods, such as psychics and séances. This directory is a repository of some of their most profound cases. From across the United States, Canada, and many spots around the globe, ghost investigators tell of their sometimes harrowing experiences, share their research, and give readers an overview of both well-known and obscure haunted locales. From private residences to inns and restaurants, battlefields to museums and libraries, graveyards to churches, The Encyclopedia of Haunted Places will offer supernatural tourists a guide to points of interest through the eyes of the ghost hunters. This reference also offers names, addresses, phone numbers, and Web addresses to each location covered. Feeling brave? You may just want to stop and visit some ghosts on your next trip.
