Virtual Reality (Digital and Information Literacy) Don Rauf

This book introduces readers to the captivating world of virtual reality (VR), which is being hailed as the next frontier in technological user experience. Major tech companies such as Facebook and Microsoft are investing millions, if not billions, in VR. Perfect for students interested in the STEM disciplines, this book teaches them what virtual reality is, how it goes beyond just gaming and is being applied to solving real-world problems by creating virtual environments for users. Finally, readers learn about the bright future of virtual reality.
