## A Planet for Rent Yoss

**Out of the modern-day dystopia of Cuba comes an instant classic from the island's most celebrated science fiction author: a raucous tale of a future in which a failing Earth is at the mercy of powerful capitalist alien colonizers.**

One of the most successful, decorated, and controversial science fiction writers in Cuba, Yoss (a.k.a. José Miguel Sánchez Gómez) is known as much for his unrepentant rock-and-roll aesthetic as for his acerbic portraits of the island under Communism.

In his bestselling *A Planet for Rent*, Yoss critiques '90s Cuba by drawing parallels with a possible Earth of the not-so-distant future. Wracked by economic and environmental problems, the desperate planet is rescued, for better or worse, by alien colonizers, who remake the planet as a tourist destination. Ruled over by a brutal interstellar bureaucracy, dispossessed humans seek better lives via the few routes available — working for the colonial police; eking out a living as black marketeers, drug dealers, or artists; prostituting themselves to exploitative extraterrestrial visitors — or facing the cold void of space in rickety illegal ships.

This inventive and raucous book marks the English-language debut of an astonishingly brave and imaginative Latin American voice.
