Histological Typing of Odontogenic Tumours (WHO. World Health Organization. International Histological Classification of Tumours) Ivor R.H. Kramer, J.J. Pindborg, M. Shear

Retaining the same scope as the first edition, this new edition deals with the classification and characteristics of tumours and tumour-like lesions. Similar information is also given on odontogenic and non-odontogenic cysts of the jaws. It is extensively illustrated with photomicrographs in colour, together with clinical radiographs and photographs of operation specimens to show the distinctive features of various lesions. The classification has been updated to reflect the present state of knowledge and changes in views, and includes a number of newly recognised entities.
