Thai Style William Warren

That special style that defines a culture is born of many elements. Thai style, so vividly revealed in its architecture and interiors, is the product of a distinctive landscape, a skillful use of varied influences, and a history unique among the peoples of Southeast Asia. It is a style that can be found in rustic country homes or chic Bangkok residences elegantly furnished with antiques and family heirlooms. It may be reflected in a number of unique and historic houses which preserve the best of the past, in unmistakably contemporary interiors where old and new sit comfortably side by side, in traditional structures revamped for modern living, and in lush tropical garden settings and seaside resorts.

The over 370 color photographs by Luca Invernizzi Tettoni present a luminous vision of this distinctive style. A concise introduction by author William Warren places Thai design in context and adds another dimension to our understanding of Thai culture. It is followed by a photographic essay which isolates elements of Thai style, from traditional objects and art forms to handicrafts and street art.

Architecture and interiors are treated in four chapters--Traditions, Traditions Adapted, Foreign Influences and Tropical Modern. Useful measured drawings are featured in the Architectural Notebook, a final section.
