Parallel Coordinates

Alfred Inselberg

Parallel Coordinates Alfred Inselberg

This book is about visualization, systematically incorporating the fantastic human pattern recognition into the problem-solving process, and focusing on parallel coordinates. The barrier, imposed by our three-dimensional habitation and perceptual experience, has been breached by this innovative and versatile methodology. The accurate visualization of multidimensional problems and multivariate data unlocks insights into the role of dimensionality. Key features of Parallel Coordinates: (1) An easy-to-read self-contained chapter on data mining and information visualization is included. (2) Numerous exercises with solutions, from basic to advanced topics, course projects and research directions. (3) “Fast Track” markers throughout provide a quick grasp of essential material. (4) Extensive bibliography, index, and a chapter containing a collection of recent results (i.e. visualizing large networks, complex-valued functions and more). Parallel Coordinates requires only an elementary knowledge of linear algebra. It is well-suited for self-study and as a textbook (or companion) for courses on information visualization, data mining, mathematics, statistics, computer science, engineering, finance, management, manufacturing, in scientific disciplines and even the arts.

From reader reviews:

James Matter:

Your reading sixth sense will not betray an individual, why because this Parallel Coordinates book written by well-known writer we are excited for well how to make book which can be understand by anyone who else read the book. Written with good manner for you, leaking every ideas and publishing skill only for eliminate your hunger then you still question Parallel Coordinates as good book not merely by the cover but also from the content. This is one book that can break don't assess book by its include, so do you still needing a different sixth sense to pick this!? Oh come on your studying sixth sense already alerted you so why you have to listening to an additional sixth sense.

Gerri Pettit:

This Parallel Coordinates is great e-book for you because the content which is full of information for you who all always deal with world and have to make decision every minute. This kind of book reveal it data accurately using great arrange word or we can declare no rambling sentences included. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but tough core information with splendid delivering sentences. Having Parallel Coordinates in your hand like having the world in your arm, information in it is not ridiculous one. We can say that no publication that offer you world in ten or fifteen moment right but this e-book already do that. So , it is good reading book. Hi Mr. and Mrs. stressful do you still doubt this?

Clyde Traynor:

What is your hobby? Have you heard that will question when you got students? We believe that that issue was given by teacher to their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person such as reading or as studying become their hobby. You must know that reading is very important along with book as to be the thing. Book is important thing to add you knowledge, except your own personal teacher or lecturer. You find good news or update concerning something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is actually Parallel Coordinates.

John Hagen:

Some people said that they feel bored when they reading a e-book. They are directly felt the idea when they get a half areas of the book. You can choose the particular book Parallel Coordinates to make your current reading is interesting. Your current skill of reading expertise is developing when you including reading. Try to choose basic book to make you enjoy to learn it and mingle the feeling about book and studying especially. It is to be initially opinion for you to like to wide open a book and read it. Beside that the book Parallel Coordinates can to be a newly purchased friend when you're really feel alone and confuse in doing what must you're doing of their time.
