Much has been written about the role and presence of the Arabs in the world at the beginning of this millennium, and their ability to meet the challenges overwhelming our planet, bristling as it is with science, technology and latest lethal weapons. Now this new book by Sheikh Mohamed Bin Issa Al Jaber penetrates to the heart of the Arab situation by a new route, hitherto uncharted. The author gives us a practical and precise summary of his own contemporary Arab experience from an intercontinental perspective, notable for its success, variety and modernity. Sheikh Mohamed has been able to scale the peaks of international corporate and institutional life, and impose his presence and voice upon them. Here, in a distillation of wisdom drawn from a unique career, he presents us with a practical account of the lessons of his success, so that they can be applied to economic and social institutions and thence to society at large.

This book is a translation of the Arabic original, first published in 2009. It therefore pre-dates the events of the 'Arab Spring' and other recent upheavals in the Arab world. Its insights are nonetheless valid, and are just as applicable to the Arab world today as they were four years ago. Indeed, they have taken on extra urgency in the light of the author's prescient diagnosis of the Arab peoples' thirst for democracy, human rights and proper citizenship in their own countries.

With a Foreword by Professor Michael Worton.
