Ben Lerner

Ângulo de guinada (Portuguese Edition) Ben Lerner

“Ângulo de guinada” é um livro de poesia incomum. Mescla de reflexão filosófica sobre a mercantilização do espaço público, prosa sobre o valor da arte contemporânea, sequências líricas e poesia experimental.

Ben Lerner – um dos mais criativos autores de sua geração – investiga o destino do espaço e do discurso públicos, e como as tecnologias de visualização – fotos aéreas em especial – criam em nossa cultura uma imagem de si própria; uma imagem espetacular.

Lerner faz parte de uma geração assombrada pela ideologia da Guerra ao Terror. Política, tecnologia e a construção de discursos e imagens são temas urgentes que não escapam ao olhar nada previsível deste instigante artista.

“O PRIMEIRO CONSOLE DE JOGOS foi a chama domesticada. Os videogames contemporâneos permitem selecionar o ângulo desde onde se vê a ação, inspirando uma sucessão de massacres escolares. Os novos jogos, que usam pequenas pinceladas para simular o reflexo da luz, resultam quase incompreensíveis para os jogadores mais velhos. Em nossos simuladores, abstraímos os aviões com a esperança de manipular o voo como tal. Os macetes, códigos secretos que transformam o personagem em invisível ou rico, alteram o clima ou permitem pular de fase, são para o videogame o que a prece é para o mundo real. As crianças, chegada a hora, tentarão aplicar os macetes ao mundo fenomênico. Pressione para cima, para baixo, para cima, para baixo, esquerda, direita, esquerda, direita, a, b, a, para que saia o sol. Esquerda, esquerda, b, b, para manter-se aquecido.”

Ben Lerner nasceu em 1979, no Kansas, Estados Unidos. É autor dos livros de poesia “The Lichtenberg Figures” (2004), “Mean Free Path” (2010) e dos romances “Estação Atocha” (2015) e “10:04” (2014).
